

# NATE Tower Climber Fall Protection Training Standard (CTS)

## N O N - M E M B E R O R D E R F O R M

The NATE CTS was developed to establish the minimum training requirements to keep tower climbers safe. NATE encourages you to provide additional training as needed to meet the specific types of work your company may perform. Designed to be used for either in-house training or commercial purposes, the NATE CTS will also provide the basis for determining that a climber's training is comprised of appropriate information, education, equipment, practical applications and evaluations. Regardless of where a tower climber is trained, they can proudly announce that they have been trained to, or beyond, the NATE standard.

Item	Weight	Price	Qty	Amount
<b>NATE Tower Climber Fall Protection Training Standard</b>	3 lbs.	\$200.00

### International Shipping Terms & Conditions:

International orders will be charged shipping costs calculated by weight and destination. International shipments may be subject to customs fees and/or import duties and taxes, which are levied once a shipment reaches your country. You, the customer, are solely responsible for any additional customs clearance fees; NATE has no control over these charges and cannot predict what they may be. It is **your responsibility** to make sure that you are allowed to import safety and educational materials from the U.S. **Shipping fees do not include customs fees, taxes and tariffs.**

To place your international order, please contact the NATE office.
